HONING STONES

Stones for honing of cylinders, bores and various tubes can be ordered individually, in small, medium or large series.

Selection of the grit:

- grit 70 - 90; coarse
- grit 120 - 280; medium
- grit 400; fine
- grit 600; extra fine
- grit upon request

Selection according to the material:

- for steel of different qualities
- for cast iron
- for other metals and materials

Selection according to the size and shape:

- shape and size as on the sketch below
- shape and size upon request

For selection indicate quality, size and shape of stones for honing. If you need expert advice please contact us.
